PROFESSIONAL PROFILE

Java Full Stack Developer with a focus on Backend (Spring Boot 3, Microservices, REST APIs, OAuth2, JWT) and solid domain expertise from manufacturing and procurement. My projects originate from real business problems I have solved myself — from inventory control to supplier evaluation, with a complete CI/CD pipeline (Docker, GitHub Actions) and test automation (JUnit, Mockito, JaCoCo).

SKILLS

Programming Languages: Java 21+, TypeScript, JavaScript, SQL, HTML, CSS
Frameworks & Libraries: Spring Boot 3, Spring Security, React, Material UI, Tailwind, Chart.js
APIs & Architecture: REST, Microservices, OAuth2, JWT
Databases: PostgreSQL, Oracle Autonomous DB, JDBC
DevOps & Tools: Docker, Docker Compose, GitHub Actions, JUnit, Mockito, MockMvc, JaCoCo
AI Tools: GitHub Copilot, Claude (development support)
Methodologies: Agile principles, Lean/Kanban (industrial), structured project planning, quality assurance
SAP: User experience (order processing, material postings)
Documentation: REDOC (API), TypeDoc (Frontend)

WORK EXPERIENCE

- **SmartSupplyPro & StockEase & Further Personal Projects** – *Full Stack Java Developer (Personal Projects)* | 11/2024 – present
 - SmartSupplyPro digitalizes procurement and supplier processes: real-time analyses of price trends, inventory levels, and supplier performance replace manual control and enable data-driven decisions.
 - StockEase provides small businesses with complete inventory transparency: capital value visualization and Excel export as a BI report — without expensive ERP software.
 - Both systems production-ready: OAuth2/JWT security, Docker deployment, CI/CD pipeline, automated tests, and complete API documentation.
 - Tech stack: Java 17+, Spring Boot 3, Oracle Autonomous DB, PostgreSQL, React, TypeScript. Additionally: interactive restaurant menu (React, JavaScript) as a frontend-only project.
- **Duagon GmbH – Nuremberg, Germany** – *Operator Selective Soldering & Process Analysis* | 04/2023 – 11/2025
(initially through ADDON temporary staffing from 04/2023; directly hired by Duagon from 08/2023)
 - Operation and monitoring of selective soldering systems; analysis and optimization of process software for soldering workflows.
 - SAP: booking, inspection, and technical completion of production orders; bill of materials management.(10/2022 – 03/2023: Relocation to Germany, German language course, further training)
- **K&K Brands – Atlanta, USA / Brazil** – *Buyer & Data Analyst* | 03/2019 – 09/2022
 - Data-driven analyses (Excel, SQL, BI reports) on budgets, price trends, and product performance — profit growth of +25%.
 - Development of KPIs for procurement decisions and controlling.
- **Alcon-Novartis Manufacturing – Atlanta, USA** – *Production Associate* | 02/2018 – 12/2018
 - Quality monitoring in medical device manufacturing; efficiency improvement of +45% through process analysis. SAP use for production data recording.
- **Thriftshopper Stores & Warehouse – Atlanta, USA** – *Data Analyst & Procurement Assistant (Second-Hand Retail)* | 03/2015 – 11/2017
 - Price comparisons, competitive analyses, and demand analysis on online platforms to ensure market-competitive pricing.
 - Assessment of product descriptions against minimum standards; evaluation of optimal market launch timing; customer service.
- **Criminal Investigator – Goiânia, Brazil** – *Criminal Investigation* | 10/2005 – 03/2015
 - Case intake, witness questioning, negotiation, mediation, and conflict resolution.

EDUCATION

IT Training: Java Developer – Application & Database Development (modular)

Comcave College, Fürth, Germany | 12/2025 – 05/2026 | Full-time
Certificate: Grade 1.0 / 5.0 – Excellent (highest grade in German grading system)
Focus: Java OCA preparation, Java OCP preparation, Database Development (1,050 hrs)

Bachelor of Arts – Business Administration (BWL)

Pontifical Catholic University of Rio Grande do Sul, Brazil | Officially recognized in Germany (KMK)

Full-Stack Developer Course

DIO (remote) | 10/2023 – 10/2024 | React, TypeScript, GraphQL, JavaScript, Java
