

Carlos Keglevich

Java Backend Developer · Spring Boot · REST APIs · Full-Stack (TypeScript/React)

+49 178 8687744 · Fürth, Germany · carlos.keglevich@gmail.com
carloskeglevich.de · github.com/Keglev · [LinkedIn](#) · [Xing](#)

PROFESSIONAL PROFILE

Java developer with a backend focus and a rare combination: deep domain knowledge from procurement, manufacturing, public service, and data analysis that now flows into production-ready software. Builds role-based enterprise APIs with Spring Boot 3 (OAuth2/JWT), inventory and early-warning solutions, and CI/CD pipelines with over 85 % test coverage. Independently translates business requirements into clean, tested code and explains technical solutions clearly — within the team and across language barriers.

SKILLS

Programming languages: Java 17/21, TypeScript, JavaScript, SQL, HTML, CSS

Frameworks & libraries: Spring Boot 3, Spring Security, Hibernate/JPA, React, Material UI, Tailwind, Chart.js

APIs & architecture: REST, Microservices, OAuth2, JWT

Databases: PostgreSQL, Oracle Autonomous DB, JDBC

DevOps & tools: Docker, Docker Compose, GitHub Actions (CI/CD), JUnit 5, Mockito, MockMvc, JaCoCo, Maven, GitHub Copilot

Documentation: OpenAPI/Redoc, TypeDoc

SAP: Material postings, inspection & technical completion of production orders (user level, SAP MM)

Methodology: Agile principles, Lean/Kanban, structured project planning

PROFESSIONAL EXPERIENCE

• Independent Software Development – Full-Stack Java (design & implementation of production-ready systems) 11/2024 – present

Alongside employment and further training · Code & live demos: carloskeglevich.vercel.app · github.com/Keglev

- Enterprise system (supplier & inventory management): 36-endpoint API with role-based access control (OAuth2, Google authentication), inventory valuation using weighted average cost (WAC), automatic alerts when stock falls below minimum levels, and a bilingual user interface (DE/EN).
- Analysis of inventory value per article and supplier dependency; complete technical documentation (OpenAPI/Redoc).
- Production-ready: OAuth2/JWT security, Docker deployment, CI/CD (GitHub Actions), test coverage above 85 % (JaCoCo), deployment on Fly.io with Oracle Autonomous DB.
- Inventory management tool (SME): CRUD application with JWT access control, inventory and supplier views, and CSV export for BI tools (e.g., Power BI, Tableau).
- Stack: Java 17/21, Spring Boot 3, React, TypeScript, PostgreSQL, Oracle Autonomous DB, Docker, GitHub Actions.

• Selective Soldering Operator — duagon Germany GmbH, Nuremberg 04/2023 – 11/2025

initially via add-on Personal & Lösungen (staffing agency), permanent contract from 08/2023

- Operation, setup, and configuration of selective soldering machines, including graphically assisted programming of soldering sequences — reduced the error rate by 30 % by correcting the graphical soldering programs.
- SAP MM: posting, inspection, and technical completion of production orders; material procurement and requisition, and release of finished products.
- Machine maintenance, visual and quality inspection; process analyses to optimize soldering workflows.

(10/2022 – 03/2023: relocation to Germany, intensive German language course)

• Buyer & Data Analyst — K&K Brands, Atlanta (USA) / Brazil 03/2019 – 09/2022

- Data and market analyses (Excel, SQL, BI reports) on prices, margins, and product performance.
- Negotiation of prices and delivery terms with suppliers in coordination with internal teams; reduced procurement costs while increasing margins by 25 % — combined with demand analysis.
- Development of KPIs for purchasing decisions and controlling.

• Production Associate — Alcon-Novartis, Atlanta (USA)

02/2018 – 12/2018

- Software-assisted early fault detection on production equipment: identifying and resolving machine errors before or immediately upon occurrence — +45 % output and fewer machine downtimes.
- Quality monitoring in medical device manufacturing; SAP usage for material procurement and production data recording.
- **Data Analyst & Purchasing Assistant — Thriftshopper, Atlanta (USA)** 03/2015 – 11/2017
 - Price comparisons and competitor and demand analyses for market-driven pricing on online platforms.
- **Criminal Investigator — Police, Goiânia (Brazil)** 10/2005 – 03/2015
 - Evaluation and combination of distributed information sources leading to the arrest of high-profile offenders; investigations, interrogations, mediation, and conflict resolution; careful handling of confidential data.
 - Identification of weaknesses in externally developed systems (access rights, data protection, usability) in daily operational use.

FURTHER TRAINING & EDUCATION

- **Qualification in Application and Database Development (modular) — Comcave College, Fürth** 12/2025 – 05/2026
Full-time · Final grade: very good (1.0, German scale) · 1,050 teaching units
 - Object-oriented programming with Java: inheritance, encapsulation, generics, collections, design patterns, functional programming, threads, modules; database connectivity (JDBC), error handling, IO/NIO.2.
- **Bachelor of Arts – Business Administration**
Pontifical Catholic University of Rio Grande do Sul, Brazil · KMK-recognized (Germany)

CERTIFICATES

- AWS Educate – Introduction to Cloud 101 (Training Badge), Amazon Web Services (verifiable via Credly).
